

WESTGUARD

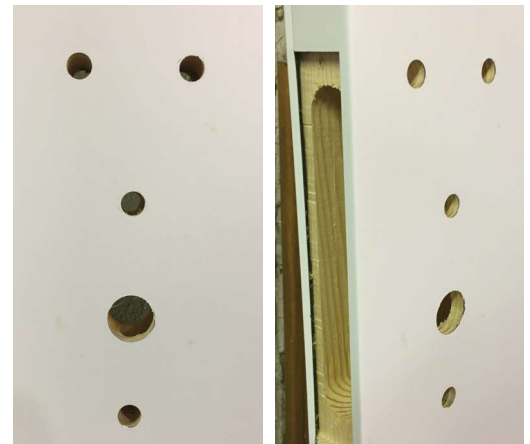

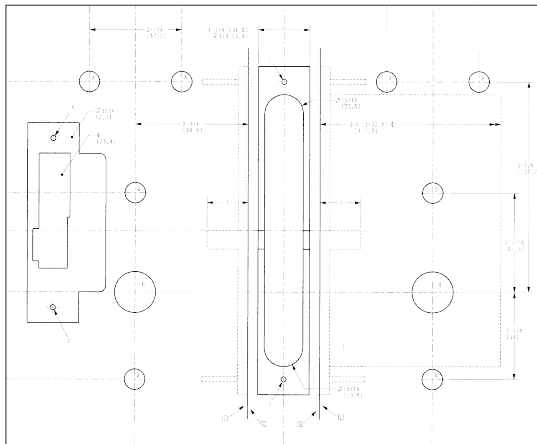

SMOOTH STEEL DOOR SERIES

Tougher than ever and built for superior performance. The WestGuard Door Series is constructed out of durable, 20-gauge, hot-dipped galvanized steel and is ideal for commercial applications.

- 20-gauge steel
- Full steel-edge perimeter offers additional strength and the industry's highest security rating
- Resists cracking, splitting, warping, twisting, rotting, and corrosion
- Adjustable Hinge Plate System
- 20-gauge hinge reinforcements
- Polyurethane foam inner core provides superior insulation
- Composite lock block provides secure mounting for door hardware
- G40 Hot-Dipped Galvanized Steel – more resistant to rust than typical, electro-galvanized doors, even in high moisture or coastal environments.
- Fire rated up to 90 minutes
- Limited lifetime warranty

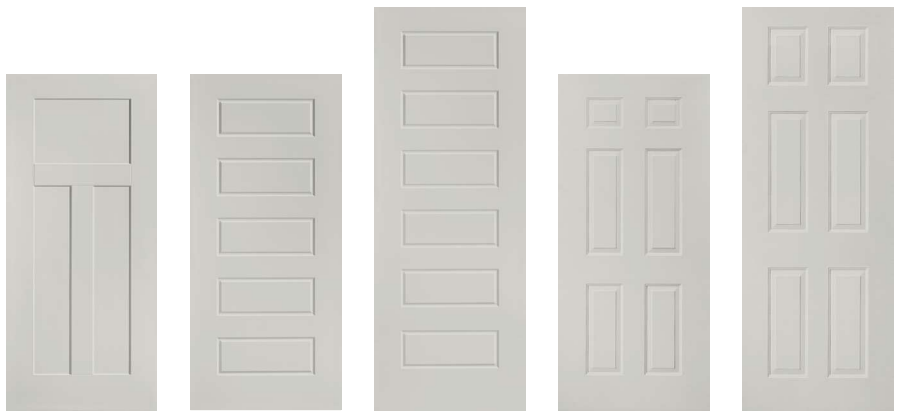

CUSTOM CAPABILITIES

Customize your door with a special lock, face bore, or edge prep that a commercial job may require.
